

JMCC Capabilities Statement

Core Competencies

A. Engineering Services

- **FAA Regulatory Compliance**
 - Read and interpret Federal Aviation Regulations, Advisory Circulars, and other guidance material to determine and explain what an Airline Operator must do to be in compliance with each regulation.
 - Write new policy or edit existing policy for operators to comply with new or existing regulations.
 - Assist Operators in obtaining Operation Specifications for ETOPS, RVSM, CAT II/III, Aging Aircraft, and other operations.
- **Develop Custom Aircraft Technical Publications**
 - Extract information and data from approved sources such as aircraft manufacturers, component manufacturers or Supplemental Type Certificate (STC) holders and write Aircraft Maintenance Manuals (AMM), Illustrated Parts Catalogs (IPC), Wiring Diagram Manuals (WDM) and task cards
 - Assemble Technical documents into printable or online formats to be used by aircraft Technicians.
 - Determine fleet configurations and variations.
- **Write Engineering Authorizations**
 - Write engineering authorizations to inspect and modify aircraft to standardize fleet or accomplish minor upgrades.
 - Write engineering authorizations to comply with Airworthiness Directives.

B. Training Services

- **Develop Training Content**
 - Develop training courses to be *delivered in the classroom or as One on One Checklists* via Instructor for any subject matter on commercial aircraft Systems, Avionics, Structures or Components for airframes built by Boeing 7X7, DC-X (AKA Douglas), Bombardier, Embraer, BAE, and Airbus.
 - Develop training courses to be delivered *On Line in the E Learning environment* for any subject matter on commercial aircraft Systems, Avionics, Structures or components for most any airframe built by Boeing 7X7, DC-X (AKA Douglas), Bombardier, Embraer, BAE, and Airbus.
- **Deliver Training**
 - Classroom Course content for Instructor Led training
 - Deliver On Line Training content via our company LMS (Adobe Connect).
 - On site Troubleshooting *training* (fix our airplane)

Our Customers

ABX AIR, Ohio

Air Transport International, Ohio

Everts Air Cargo, Alaska

Atlas Air Worldwide, New York

National Air Cargo, Michigan

Airlink , South Africa

Certified Aviation Services, California

Air Caledonie, New Caledonia

Allegiant Air, Nevada

Airborne Maintenance and Engineering
Services, Ohio

Ameristar, Texas

Polaris Aviation Solutions, New Jersey

Rubicon Aviation, Pennsylvania

Southern Air Cargo, Kentucky

Our Company

- Office is located in Wilmington Ohio at the Wilmington Air Park
- Staffing is administered by Owner, Joe Merry.
- Quality of processes are controlled via our own JMCC Policy and Procedures
- Small company enables us to be very efficient.
- Utilizing part time vendors enables us to procure the skills of the Best Aviation Professionals in the business.
